## The Intelligencer.

WHEELING, JANUARY 8, 1803. REPUBLICAN CITY TICKET.

FOR MAYOR, BSF. CALDWELL.

CHARLES F. SCHULTZE. CITY SIDIGRANT, THOS. D. BENNETT. WHARP MASTER, JOHN R. MARSH. Organize for 1896.

A Washington dispatch outlines the policy adopted by the Republican national committee for the years preceding the campaign of 1896. It is not proposed to waste any time, but to begin immediately the work of education preparatory to waging an aggressive campaign for protection in that year. The movement is in the right direc-

tion, and will doubtless be heartily supported by Republicans throughout the country. The lack of organization in non-presidential years has been a serious weakness of the party heretofore and the national committee proposes to take early action in the matter by maintaining a thorough equipment of the party machinery from now on until the country will again be called upon to elect a President. The necessity of the move made by

Chairman Carter and his associates cannot be overestimated. The New York Press, in commending it, calls attention to the importance of the action of the committee in the following language, which we quote entire because it so forcibly expresses the situation:
"While it has been the practice of

the Democrats in close States at least to maintain their organization intact and to keep up an incessant partisan activity, the Republicans, as soon as a Presidential election was over, have been in the habit of dropping political work altogether. The result has been distinctly unfavorable to Republican success. The last campaign shows the folly of waiting to organize and arouse the Republican forces until the very hour of the battle. The time to extend party organization and perfect party discipline is before the final contest begins, not after the guns of the enemy have opened fire.

"The idea of a permanent Republican headquarters equipped with an effective working force under the supervision of the national executive committee, should be carried into full execution. The work of educating the peoole on the great issues that divide the two parties can be done far more effectuslly in four years than in three months. A systematic campaign should be projected by Republican leaders. The league of Republican clubs should be encouraged and extended in every possible way. The weak spots in the regular party organization should be strengthened. Especial attention ought to be given to the Western States, where the Populist movement has developed into Democracy's most potent ally. If this work is performed, and performed thoroughly, Republican success four years hence can be made sure."

National Quarantine.

It is a matter of regret that an efficient national quarantine law may fail to pass Congress because the Demo-cratic fetich known as "States Sovereignty" stands in the way. In the face of the fact that there is an almost unanimous desire for a law which will be national in in its effect, and which will be no compromise between states rights and the power of the government to guard the health of the people, there are men in Congress who are trifling with the important question by raising the point that such an act would interfere with the rights of the coast and border states to regulate quarantine at their own ports.

The quarantine bill which has been prepared by the house committee provides as follows:

vides as follows:

That wherever state quarentine regulations exist the hospital service of the revenue marine, under the direction of the treasury department, that have the power to unforce the law and and revalsions of the different states. Where there are no state quarentine regulations, or where, in the opinion of the marbe hospital service the quarentine regulations of the states are not sufficient to prevent the introduction of commodule diseases. Into the United States, the marine hospital service shall report the feats to the secretary of the freezers, who if in his judiment it is necessary or proper, thail order to marine hospital service to make such additional rules and regulations as are the constant to the secretary of the freezers, who if in his judiment it is secretaries of incommodular the state of the constant properties are the constant of the constant properties of the constant properties father.

The objection to this proposed law

The objection to this proposed law English language for the first time. seems reasonable. It is that it does not Latin has been dead for a long while go far enough. It is urged that there should be no division of responsibility, but that the sole power to regulate the quarantine and the sole responsibilityfor the enforcement of the rules should ment 18 is soo serious a matter to trile with. No law should be passed death of the year.

which will admit of a complication of state and federal authority, or give riss to dispute between federal and state officials. The experience last fall in New York furnished a lesson which

should be profited by.

The spread of the cholera spidemic in Hamburg and the necessity for prompt action to prevent the plague from obtaining a foothold in America are in themselves enough to awaken our national legislators to the fact that it is nol time for quibbling about states rights. A national quarantine, complete and uncompromising, is the demand of the people. The entire country is interested in the matter and the public safety is of greater importance than the selfish desires of the Tammany politicians of New York city.

A Literary Treat.

Next Saturday the Intelligences will begin the publication, in serial form, of J. Monk Foster's new story, "The White Gypsy." The story is pronounced by critics who have been fortunate enough to read the advance sheets to be the best of the author's productions, and the Intelligences has secured the exclusive right to publish it in Wheeling.

Mr. Foster is the popular editor of a prominent newspaper published in Wigan, Lancashire, and has for years been a close student of miners' life. The town of Wigan is in the heart of a great coal-bed, and is honeycombed beneath on every hand, so that in spite of "propping" and "shoring" the whole vicinity rolls like a prairie through set-tlement of the land. The effect upon the tall chimneys at the pit mouths and elsewhere is very curious, and gives the good old town (which was the seat of several battles at the time of the restoration) a reckless and almost dilapidated appearance.

Located in Wigan are also the Wigan Coal and Iron Company's Works, which atone give employment to several thousand men. The miners are for the most part a rough and uneducated lot, though the law prohibiting the employment of women (except in a few light jobs at the pit mouth) is doing much to improve matters. While prone to drink and fight and strike, the Lancashire coal miner has a warm spot in the soft side of his heart, and is generous to a fault. When "working" and in the receipt of fair wages, he is as merry a soul as breathes, and his grimy face does not prevent that love for music which is characteristic of nearly all Lancashire people.

The story, which deals with the life of these people, will run through sixteen issues of the INTELLIGENCER, and our readers may rest assured that a great treat is in store for them.

Ir is chronicled in the dispatches that Senator Vest, of Missouri, has written a "pert letter" attacking President Harrison's Indian policy, and accusing the President of being under the control of a narrow-minded bigot. Senator Vest isn't happy unless he is at tacking somebody. President Harrison has withstood his assaults before and is none the worse off.

Bound volumes of St. Nicholas for 1892 have been issued by the publishers. St. Nicholas, during the past year, has more than maintained its high standard. An easy way to delight the heart of your representative young American would be to make sure that this excellent magazine continues its monthly visits during 1893.

En Munphy's friends are wasting a great deal of printer's ink trying to convince Mr. Cleveland's friends that he, the said Murphy, is a good Demo-crat. How foolish they are. Haven't they learned by this time that an aspirant's Democracy doesn't count with Mr. Cleveland?

"Kansas may bleed again" is the startling headline in a Sunday paper. Then tollows an account of how the Populists are determined to capture the Kansas legislature at any cost. The Democrats and Republicans are equally determined and Kansas, may, indeed, bleed again.

Ir Mr. Murphy, of New York, had been as frank a few weeks ago about expressing his private opinion regarding Mr. Cleveland's fitness for President as Mr. Cleveland has been in sizing up Mr. Murphy's qualifications for senator it is probable that New York's electoral vote would have been cast for Mr. Har-

Down in Mexico two boys, aged nine and eleven years, fought a fatal duel with knives. In France grown up men fight with platels and swords and do not injure each other. Duelling is a barbarous custom at best, but the French method is more civilized than the Mexican.

That excellent Republican paper, the New York Pres, in an editorial, urges the Republicans of the country to begin the campaign of 1896 now. The suggestion is a little late. The INTELLI-GENCER began it the morning after the knockout of November 8.

THE acquital of Dr. Briggs of the charge of heresy is one of the most notable events in religious history. It is a victory for modern liberality over the conservatism of the past, but its effect on Presbyterianism remains to be seen,

THE news that Senator Kenna has suffered a relapso will be received with sorrow throughout the state. Everyone, regardless of party, will unite in the prayer that he may be restored to health.

This Pope issues an encyclical in the but this is the first indication that the funeral will soon occur.

A New Year's suggestion for the city of Wheeling-Let us have cleaner atreets

BREAKFAST BUDGET.

An interesting piece of information brought out during the Brussels conference is the fact that there are at present no less than \$100,000,000 of counterfait silver money in circulation in France, Belgium, Switzerland, Italy, Spain, and Portugal.

Spain, and Fortigal.

St. Chad's Church clock, at Shrewsbury, which was made last century, has a longer pendulum than any other clock in Great Britain. Its pendulum is 22 feet long, and bell 4 feet 5 inches in circumference and 200 pounds in weight.

It is claimed for the new magnesium flash light for lighthouses, introduced experimentally in Germany, that its ability to penetrate almostopaque atmosphere exceeds that of any other known light.

The Imperial Cholera Commission in Germany announces its discovery that wine-claret or hock-will kill the bacilli of cholera in a few minutes. Tes will kill them in an hour.

A blast fired in a quarry at Grante-ville, Mo., recently disloded 100,000 cubic feet of stone, all in one solid mass. A West Philadelphia man has named his horse Nail because his wife can't drive it.

The United States chewed eighty-five tons of tobacco last year.

ANECDOTAL,

ANECDOTAL.

A minister of a little town in the north of Scotland having been affronted by the provest, who was a butcher, reselved to have revenge. Accordingly when Sunday came in the prayer before the sermon he made use of the following expression: "And since, O Lord, Thou has commanded us to pray for our enemies, herein we beseen Thee for the provest of this town; give him the strength of Samson and the courage of David, that he may knock down sin like an ox and cut the throat of iniquity like a suckling calf, and let his horn be exalted above his brethren."

"Mr. Dusenberry," said the sick man

exalted above his brethren."

"Mr. Dusenberry," said the sick man to his neighbor whom he had called to the side of what he supposed was his deathbed, "we have had much difficulty in the mat and have not been but speaking torms. I believe I am now about to die and I have sent for you that we may settle our differences and be friends before I go." "Nothing would give me greater pleasure than a reconciliation," replied Mr. Dusenberry as he took the hand of the dying man. "But remember," said the invalid in a gradually sinking voice, "if I got well the thing goes on just as it did before."

Dr. R. S. Storrs, in one of the lectures

Dr. R. S. Storrs, in one of the lectures on extempore preaching, tells that when an Indian, named Oceam, was before a certain presbytery for license to preach he was asked, among other things: "What is original sin?" and answered: "I don't know what it is with other received by with year of think it is

Even the heavens wept over the deplay in our window.

HOT TIMES IN NEBRASKA.

A Special Engine Used to Obtain a Vote Necessary in the Legislature. Leventa, Nece, Dec. 81.—The fight over the United States Senatorahip is becoming alarming. Late last night the supreme court declared the Boyd-Knox county contest in favor of Norton, Republican, and against Kruse, Independent, who had received the cartificate of election from the Independent county clerk. The Independent are indignant and declare that they will ignore the supreme court, which they say is a Republican institution. A special engine left Lincoln last night, bearing a man who is to serve the writ on the county clerk of Knox county. The haste is due to the fact the Legislature will convene at noon next Tuesday, and the Republicans desire Norton's vote to help organize the house. With Norton's vote the Republicans would have forty-nine, two less than a majority. A lobby has promised to "obtain" these necessary two votes.

But there is one matter which will be Norton, Republican, and against Kruse,

ised to "obtain" these necessary two votes.

But there is one matter which will be in Mr. Norton's way. The writ can't reach Niobrara, the county seat of Knox, until tomorrow. On Sunday the vote can't be counted, and the following day is a legal holiday, and on that day it can't be counted. On Tuesday the Legislature will meet, and if the votes are counted on that day the certificates for Norton could not be here until Thursday as the earliest. At noon Tuesday Kruse will put in his certificate and take his seat. If the Republicans organize the Legislature, Kruse will not take the seat. They will also oust several Independents sput tills would all be done before the election of a United States Senator.

MRS. LEASE WONT BE BOUGHT.

MRS. LEASE WON'T BE BOUGHT. She May Accept One Place, but is Still a Candidate for Senator.

Topeka, Kas., Jan. 1 .- Governor elect Lewelling announces that he has decided to offer Mrs. M. E. Lease a position on the state board of charities. It will be one of the first appointments

he will make.
It is reported here that Mrs. Lease has manifused her willingness to accept the position, but it is to be well understood beforehand that in accepting this position she does not in an way relinquish her claim to the sens torship.

THE NEXT SENATE. The Chances in Favor of Democrats Controlling it.

WASHINGTON, D. C., Jan. 1 .- While the Republicans are willing to admit that the senate is in doubt and that probably the chances are favorable to the Democrats, they are unwilling to concede the body to the Democrats. Said a United States senator to-day to

concede the body to the Democrais.

Said a United States senator to-day to the Commercial Gazette correspondent: There are eighty-eight senators. The Democrate have now thirty-nine. They have gained two absolutely in New York and Wisconsin. That gives them forty-ope. Now, assuming that Senator Kyle, the Third Party man from South Dakota, who sits on the Democratic side of the senator, will act with them, they will have forty-two. In order to control the organization they have to secure two or we senators, making forty-four, and the casting vote of the Vice President gives them the organization. We now tave forty-seven Republicans in this, the last session of the Fifty-third Congress. Now, with the two we have lost, it makes forty-five. But there are five states in doubt, and until the senators are elected the question is certain until the election.

"The states in doubt are Kansas, Nebraska, Wyoming, Californis and Montans. The Democrats are, through their newspapers, asserting that they will control the senate, and are accusing us of trying to steal it. This is for the purpose of creating an idea that they will control it and make it appear, if we should control, that we got the control by dishonest means. It is simply a sharp game of theirs. It looks to me as if the Third party men might have the control. I refer to Senators Pedfer and Kyle. The Democrats will not like that situation any more than we did when Riddleberger, of Virginia, held the balance of power some years ago. They are fourful of such a situation, appreciating that, in order to do anything, they will have to make concessions to the Third party people that they do not want to, and which may hurt them before the people. It is a situation of great interest."
